How to use the service marks and trademarks properly:

- Always use trademarks as adjectives modifying nouns; never use them as standalone nouns.** Examples include “FIM<sup>®</sup> rating” and “UDS-PRO<sup>®</sup> software.”
- Use the trademark symbols each time a trademarked term is used in every work, table, and chart.**
- Use each trademark as it has been registered; never modify a service mark or trademark, even in possessive form.** For example, use “FIM<sup>®</sup> assessments,” not “FIMs.”
- Place an explanation of all trademarks at the bottom (or along the side) of a document’s first page.**

Insert all trademarks used in the document into one of the following formats:

- \_\_\_\_\_ is a trademark of Uniform Data System for Medical Rehabilitation, a division of UB Foundation Activities, Inc.
- \_\_\_\_\_ are trademarks of Uniform Data System for Medical Rehabilitation, a division of UB Foundation Activities, Inc.
