

2019 UDSMR® Annual Conference | August 15–16, 2019

The Leading Forum for Rehabilitation: Strategies and Plans for the Future

Educational “Rounds”

Thursday, August 15, 2019: 3:00 p.m.–3:45 p.m.

Take a break from the conference table, and engage in open discussion! Staff members from UDSMR will host interactive educational discussions on a variety of subjects. Make your rounds, and join the topics that mean the most to you!

IRF QRP Quality Reporting Solutions | *Troy Hillman and Alex Duffy*

Receive an up-to-the-minute view of UDSMR’s IRF QRP reports, including a preview of reports currently under production and those planned for the future.

Focus on Quality: Strategies for QI Implementation | *Janet Patrick, RN, CRRN; Linda Case, CTRS; and Brittany Sifuentez, RN, BSN*

Join us for open discussions on operationalizing a QI process and determining who completes which assessments, how often, and what qualifies as “most usual before therapy intervention.” Share your processes, or hear from other facilities about their implementation plans!

ICD-10 Coding in a Flash | *Stephanie Johnson, CCS, and Kim Rodenbusch, BAS, RHIA, CDIP*

Test your skills with a series of fast-paced true-or-false queries at three different skill levels designed to test both basic and advanced knowledge of the IRF PPS.

The UDS-PROi® App | *Michael Georgian*

Come see our new UDS-PROi® app, which allows iPad users to create offline preadmission records and track functional ratings across assessments using either the FIM® instrument or our new Post-Acute Care Common Functional Index (PAC-CFI) measure.

Great Expectations: A FY 2020 Software Preview | *Rick Harper*

UDSMR’s technical team has been working diligently to prepare the UDS-PROi® software for fiscal year 2020. Stop by to view the latest software details in our most recent testing environment. We welcome questions and discussions about the current version of our software, as well as upcoming features.

UDS-PRO Doc™ System | *Tara Altenritter, OTR/L*

Engage in a review of UDS-PRO Doc™ enhancements that highlight an interdisciplinary approach to integrating quality indicator data into daily documentation.

Using HL7® Interfaces to Automate Dataflow | *Joan Hagerty*

HL7® interfaces increase efficiency by transferring demographic and IRF-PAI data between your EMR, billing, and clinical documentation systems and the UDS PROi® software. Our experts are available to answer specific questions regarding how an HL7® interface can benefit your facility.

QI Credentialing: So Many New Options! | *Carol Harper, COTA; Karen Floriano; and Rachael Fancher, BS, MBA*

Explore the flexibility of UDSMR’s new QI credentialing module, and learn how you can use it in a way that works best for your program.

A Road Map to QI Resources | *Karen Floriano, Nicole Keller, and James Hall*

The UDSPRO Central™ website is host to many free resources related to CMS’s quality indicators. Join us to learn where to find—and how to use—these various resources, reports, and free webcasts.

Medicare Appeals: New Strategy, New Option | *Brigid Greenberg, PT, MHS, and Marjorie Mantione, PT*

Members of UDSMR’s appeals team will focus on an appeal strategy based on a district court decision and a more recent Supreme Court decision that emphasizes the Code of Federal Regulations (CFR) as the legal standard for payment versus the *Medicare Benefit Policy Manual*. We will highlight the differences between these two documents and summarize them in a take-home reference. We also will discuss the current IRF appeals settlement and provide pointers for your facility’s consideration.
