Our updated edition of the **IRF PPS Pocket Guide** is here! It contains a full fiscal year’s worth of updates based on the October 1, 2015, implementation of ICD-10 and the associated changes in determining your facility’s compliance with the 60% rule.

**What’s new?**

Our updated guide includes an IRF coding guideline section, as well as discipline-specific guidelines for physicians, PPS coordinators, and HIM coders. These instructions will help you avoid documentation inconsistencies and help ensure the accuracy of your IRF-PAIs and UB-04 claim forms.

**What’s been updated?**

The IGC and IRF presumptive compliance section now includes a step-by-step look at how CMS determines whether a case complies with the 60% rule. In addition, we’ve removed C-1 information from the table that defines each impairment group code’s presumptive compliance status, allowing you to focus on the C-2 information you need to be successful.

We’ve also updated the list of tiered codes most frequently recorded as comorbid conditions, as well as our list of the twenty-five most frequently recorded comorbid conditions, regardless of tier. These new lists reflect ICD-10 codes recorded by our subscribers between the implementation of ICD-10 on October 1, 2015, and the end of FY 2016 on September 30, 2016.

**How can one book help make so many peoples’ jobs a little easier?**

The IRF PPS Pocket Guide fits in a lab coat pocket for easy access, and its easy-to-read tabs and laminated pages aid navigation and increase its durability. Most importantly, it **puts vital information at your fingertips** and helps simplify the complexities of IRF coding.

If you want to improve your staff’s understanding of IRF PPS documentation and coding rules, the second edition of the IRF PPS Pocket Guide is for you!

*To order the IRF PPS Pocket Guide, complete the form on page 2.*
