## **Systems Support/Analyst**

full time

**Join the team of Inpatient Rehabilitation Experts!**

There are a lot of jobs in IT but rarely can you impact patient care and outcomes!

Come join UDSMR the team of experts that provides healthcare facilities the technical and clinical expertise that enables them to adhere to the complex regulations for care and payment. Our software systems used by inpatient rehabilitation facilities and post-acute care are based on a uniform metric that provides the basis for benchmarking and comparison of healthcare outcomes. This enables healthcare providers to document and improve the outcomes, processes and perceptions of care.

As the **Systems Support / Analyst** you will be responsible to analyze subscriber systems, test and provide technical support of product software based on a thorough knowledge of all UDSMR product lines.

The ideal candidate has a highly developed ability to cull out a customer's technical issue and provide clear and supportive instructions via phone and email to resolve the issue. Have a presentation that exudes a comfort level for the customer that gives them the assurance that they will have their problem resolved each and everytime.

The skill to learn technical software and all the nuances easily is essential to success in this position.

UDSMR keeps up to date on new technologies. In the healthcare environment it is essential to utilize systems and technology that provide the highest level of security possible. You will be working with up-to-date current and future technologies including Cisco, Microsoft and Oracle. Self driven – learners who are energized by keeping abreast of the new technology and security will thrive in our company.

Knowledge and skills: Bachelor Degree in technical discipline or Associates Degree and strong technical background. 2 year's experience in system support and analysis. Excellent communication skills, written and verbal, is essential.

Our diverse team of highly motivated leaders and innovators are the secret to our 30 plus years of success. If you are a professional who collaborates with their team to deliver the best and most reliable network system then apply today!
