

2021 UD_{SMR}[®] Webinar Series

an overview

Webinar Category	Date and Time	Title and Description	Learning Objectives	Price
ICD-10 Coding/ Impairment Group Coding 	January 14, 2021 2:00 p.m.–3:15 p.m. Eastern	Coding COVID-19: Applying the Guidelines to Inpatient Rehabilitation Physicians, clinicians, and coding professionals are dealing with the challenges of not only managing the subsequent medical and functional effects of COVID-19 for acute inpatient rehabilitation patients, but also selecting the correct impairment group codes (IGCs) and accurately coding these medical conditions and functional deficits. During this webinar, a team of clinical and coding support specialists from UD _{SMR} will navigate the specific ICD-10 codes associated with COVID-19, introduce newly released ICD codes, and discuss possible IGCs that are based on the manifestations documented in the patient’s medical record. The presenters will demonstrate the importance of collaboration to ensuring accurate coding of the IGC, etiologic diagnosis, and comorbid conditions on the IRF-PAI for COVID-19 patients and will present scenarios designed to ensure that participants can apply the concepts discussed in the presentation.	<ul style="list-style-type: none"> • Demonstrate collaboration with the multidisciplinary team to ensure accurate coding of COVID-19 for inpatient rehabilitation patients. • Demonstrate impairment group coding and ICD-10 coding concepts through practice scenarios. 	Subscribers \$59 Nonsubscribers \$79
Clinical 	January 19, 2021 2:00 p.m.–3:15 p.m. Eastern	Revealing CMS’s Clarifications for Quality Indicators Accurately coding the quality indicators on the IRF-PAI is critical to your facility’s outcomes, public reporting, and Medicare reimbursement. This webinar will review CMS’s most recent clarifications to the inpatient rehabilitation industry’s questions about coding quality indicators. Attendees will be oriented to these CMS guidelines, which cannot be found in <i>The IRF-PAI Manual</i> , and will apply what they have learned to interactive clinical scenarios.	<ul style="list-style-type: none"> • Describe recent clarifications to the inpatient rehabilitation industry’s questions for coding quality indicators. • Apply clarifications to clinical scenarios. 	Free <i>Subscribers only</i>

Report Review 	January 21, 2021 2:00 p.m.–3:15 p.m. Eastern	CMS Risk-Adjusted Expected Values: What Are They, and How Can They Be Used? This webinar will examine CMS’s risk-adjusted expected values, identify the patient characteristics that are used in the calculations, and explain where you can find these values in the UDS-PROi® software. It will help attendees not only understand how these values apply to the IRF Quality Reporting quality measures, but also find this information on CMS’s website. Finally, the webinar will explain how IRFs can incorporate these values into patient goals and team conferences.	<ul style="list-style-type: none"> • Demonstrate integration of quality measure values into patient goals and team conferences. 	Subscribers \$59 <i>Subscribers only</i>
Clinical 	January 28, 2021 2:00 p.m.–3:15 p.m. Eastern	Setting Patient-Focused and Family-Focused Goals to Optimize Outcomes Have patient goals become a grid of numbers that your IRF interdisciplinary team provides updates on each week? This webinar provides team-based strategies for setting patient-focused and family-focused goals as part of a process that complies with IRF regulatory guidelines. Clinicians will learn different approaches they can use to work with patients and caregivers in order to establish and prioritize goals that will help produce quality measure outcomes.	<ul style="list-style-type: none"> • Utilize patient goals to achieve optimal outcomes. 	Subscribers \$59 <i>Subscribers only</i>
Clinical 	February 3, 2021 2:00 p.m.–3:15 p.m. Eastern	Frequently Asked Clinical Questions: What the IRF Industry Wants to Know UDSMR’s clinical support help desk fields hundreds of questions weekly. This webinar provides direction and insights based on the questions most frequently submitted to our clinical help desk. Our clinical support specialists will identify trends in multiple areas, including IRF-PAI completion, IGC coding, quality indicators, and IRF PPS requirements. Following this webinar, participants will feel more confident about completing the IRF-PAI and will have a better understanding of the IRF PPS.	<ul style="list-style-type: none"> • Solve frequently encountered IRF-PAI completion challenges.
