

March–April 2021 UDS_{MR}[®] Webinar Series

The Path to QI Coding Accuracy

Date and Time	Title and Description	Learning Objectives	Price
<p>March 31, 2021 2:00 p.m.–3:30 p.m. Eastern</p> <p>April 7, 2021 2:00 p.m.–4:00 p.m. Eastern</p> <p>April 14, 2021 2:00 p.m.–4:00 p.m. Eastern</p> <p>April 21, 2021* 2:00 p.m.–3:30 p.m. Eastern</p>	<p>The Path to QI Coding Accuracy</p> <p>This four-part webinar series focuses on the IRF-PAI’s quality indicator sections. Attendees review the definition and coding instructions for each quality indicator item and examine realistic scenarios designed to help them code quality indicator items more accurately as part of their day-to-day practices.</p> <p>In addition to explaining how to code the quality indicator items, the new final session focuses on UDS-PRO[®] reports that can be used to analyze self-care and mobility outcomes data from a clinical perspective. Participants are provided with process examples, trends to look for, and documentation practices observed during UDSMR’s chart audits.</p> <p>March 31</p> <ul style="list-style-type: none"> • Introduction to the Quality Indicators • Section B, Hearing, Speech, and Vision: Items BB0700–BB0800 • Section C, Cognitive Patterns: Items C0100–C0900 <p>April 7</p> <ul style="list-style-type: none"> • Section GG: Items GG0100A–GG0100D, Prior Functioning: Everyday Activities • Section GG: Items GG0110A–GG0110Z, Prior Device Use • Section GG: Items GG0130A–GG0130H, Self-Care • Section GG: Items GG0170A–GG0170SS1, Mobility <p>April 14</p> <ul style="list-style-type: none"> • Section H, Bladder and Bowel: Items H0350–H0400 • Section I, Active Diagnoses: Items I0900–I7900 • Section J, Health Conditions: Items J1750–J2000 • Section K, Swallowing/Nutritional Status: Item K0110 • Section M, Skin Conditions: Items M0120–M0300 • Section N, Medications: Items N2001–N2005 • Section O, Special Treatments, Procedures, and Programs: Item O0100 <p>April 21*</p> <ul style="list-style-type: none"> • Using UDS-PRO[®] Reports to Analyze Self-Care and Mobility Outcomes Data from a Clinical Perspective 	<ul style="list-style-type: none"> • Define QI items and coding considerations and use CMS’s clarifications to code the items accurately. • Demonstrate an understanding of coding concepts, as illustrated by learning exercises involving example scenarios. • Analyze self-care and mobility outcomes by using identified UDS-PRO[®] reports to determine whether the data accurately represents the program and its patients. • Detect areas of opportunity and root causes of inconsistency in QI coding and accuracy, such as those identified during UDSMR’s chart audits. 	<p>Subscribers: Sessions 1–3: \$225 Optional Session 4: \$50 (<i>subscribers only</i>)</p> <p>Nonsubscribers: Sessions 1–3: \$325</p>

*Optional session/subscribers only
