

December 2020 UDS_{MR}[®] Webinar Series

Laying the Groundwork

Date and Time	Title and Description	Learning Objectives	Price
<p>Monday, November 30; Wednesday, December 2; and Friday, December 4, 2020</p> <p>2:00 p.m.–3:30 p.m. Eastern</p>	<p>Laying the Groundwork: IRF-PAI Coding</p> <p>Accurately recording the admission impairment group code (IGC), etiologic diagnosis, and comorbid conditions on the IRF-PAI is essential for appropriate reimbursement in inpatient rehabilitation. These three webinars will introduce the necessary groundwork for coding IRF-PAIs, beginning with selecting IGCs and followed by coding etiologic diagnoses, comorbid conditions, and complications.</p> <p>November 30: Impairment Group Codes</p> <p>Session 1 begins with a clinical support specialist clearly defining impairment group codes and their important role in IRF coding. It provides a comprehensive review of each impairment group category, including subclasses and applicable clinical examples.</p> <p>December 2: Etiologic Diagnoses, Comorbid Conditions, and Complications</p> <p>Session 2 builds on session 1 by focusing on the philosophies behind assigning an etiologic diagnosis appropriate for the admission IGC. It also defines comorbid conditions and complications in the IRF setting. A HIM coding specialist will explain the importance of capturing these conditions on the IRF-PAI in order to tell the story of the patient’s medical complexity.</p> <p>December 4: Tiers and Compliance</p> <p>This session introduces tiered comorbid conditions and focuses on the importance of specificity in physician documentation and its effects on ICD-10 coding. A HIM coding specialist will identify strategies for ensuring accurate coding that can affect compliance and tier capture rates in the IRF setting.</p>	<p>November 30:</p> <ul style="list-style-type: none"> Describe the importance of choosing the most appropriate impairment group code for the IRF-PAI. Choose the best impairment group code for each clinical example. <p>December 2:</p> <ul style="list-style-type: none"> Describe the importance of assigning the most specific etiologic diagnosis for the admission impairment. Distinguish between comorbid conditions and complications for the IRF-PAI, and understand how to accurately code these conditions. <p>December 4:</p> <ul style="list-style-type: none"> Identify tiered and compliant conditions by utilizing appropriate resources. Understand the importance of specific physician documentation for optimal IRF-PAI coding. 	<p>Subscribers \$175 Nonsubscribers \$225</p>
