

May-June 2020 UDS_{MR}[®] Webinar Series

an overview

Webinar Category	Date and Time	Title and Description	Learning Objectives	Price
Program Management 	May 14, 2020 2:00 p.m.–3:00 p.m. Eastern	Navigation, Implementation, and Education of CMS Guidelines In recent years, the annual publication of CMS's final rule has resulted in significant changes to the IRF-PAI. Initiating and implementing a thorough plan for educating staff and ensuring the accuracy, efficacy, and consistency of the documentation in the patient's medical record in order to accurately code the IRF-PAI comes with many challenges. This presentation will provide a framework for planning and implementing a sustainable training program that maintains consistency throughout a large and diverse staff and will explain how to prepare for the implementation of SPADES.	<ul style="list-style-type: none"> Identify key strategies for implementation of a large-scale education program. 	Subscribers \$59 Nonsubscribers \$79
Report Review 	May 19, 2020 2:00 p.m.–3:00 p.m. Eastern	Case-Mix Index: Managing the Measurement of IRF Patient Severity Case-mix index is the measure of average patient severity based on equivalent patients. It represents the presumed resources used by patients upon discharge from an IRF. In this joint presentation from our analytical and clinical specialists, we will explain how case-mix index is calculated, identify which factors contribute to changes in patient severity, and introduce ideas for improving the accuracy of your case-mix index.	<ul style="list-style-type: none"> Discuss the factors that contribute to a facility's case-mix index. Webinar Category	Date and Time	Title and Description	Learning Objectives	Price
Clinical 	May 21, 2020 2:00 p.m.–3:00 p.m. Eastern	Therapy Documentation: Supporting the Rehab Admission Therapists occupy an essential role on the interdisciplinary inpatient rehab team, and their documentation is equally critical to supporting a patient’s admission to rehab as reasonable and necessary. This one-hour webinar will provide inpatient rehab therapists with an understanding of the CMS regulations and guidelines that apply to therapy services, discuss the importance of accurate QI coding and documentation for determining each patient’s estimated length of stay and reimbursement, and provide examples that will illustrate how rehab therapists can enhance their documentation.	<ul style="list-style-type: none"> Identify key Center for Medicare and Medicaid Services (CMS) requirements of rehab admissions in the <i>Medicare Benefit Policy Manual (MBPM)</i> that are supported by documentation of skilled therapy practice in the IRF setting. 	Subscribers \$59 Nonsubscribers \$79
Clinical 	May 26, 2020 2:00 p.m.–3:00 p.m. Eastern	Weekly Team Conference: A Blueprint for Action The weekly team conference in an IRF is a dynamic and significant meeting with many regulatory standards. Participants in this webinar will come away with a comprehensive understanding of the regulations related to an interdisciplinary team approach to care and the specific action steps their team can implement to improve its team conference process and documentation. We also will share answers to frequently asked questions posed to UDSMR’s clinical help desk.	<ul style="list-style-type: none"> Understand the CMS regulations for interdisciplinary team conferences outlined in the <i>Medicare Benefit Policy Manual (MBPM)</i>. 	Subscribers \$59 Nonsubscribers \$79
ICD-10 Coding 	June 2, 2020 2:00 p.m.–3:00 p.m. Eastern	COVID-19 and Related Manifestations: Choosing the IGC, Etiologic Diagnosis, and Comorbid Conditions to Support Each Case Inpatient rehabilitation hospitals and units are a critical part of efforts to combat COVID-19 and the recovery period for related manifestations. The last several months have resulted in a vast increase in everyday ICD-10 and IGC coding challenges and guidance. This webinar will focus on the best code selections based on physician documentation, ICD-10 guidelines, and <i>The IRF-PAI Manual</i> .	<ul style="list-style-type: none"> Determine and select the best possible impairment group code, etiologic diagnosis codes, and comorbid conditions based on physician documentation and guidance from both the ICD-10-CM Official Coding Guidelines and the IRF PPS. 	Subscribers \$59 Nonsubscribers \$79
