Post-Acute Academy

Does your rehab organization need education for the entire team?

If so, let **Post-Acute Academy** be your one-stop solution! UDSMR's Education, Training, and Consultation (ETC) department has joined McBee, expanding Post-Acute Academy's offerings with their highly regarded inpatient rehabilitation facility (IRF) trainings. These recorded educational courses focus on the Inpatient Rehabilitation Facility Prospective Payment System (IRF PPS), as well as the many regulatory requirements that apply to IRFs. Topics include IRF-PAI completion, quality indicator (QI) coding accuracy, impairment group code (IGC) selection, ICD-10 coding, CMS documentation requirements, rehabilitation physician documentation, denials and appeals, and so much more!

Post-Acute Academy not only offers both individual sessions and multisession series, but also allows rehab professionals to earn CEUs anytime, anywhere with select courses. For more information, see the individual course descriptions, links to which are provided throughout the rest of this catalog.

Annual Membership

Although rehab professionals can purchase individual courses separately, an annual membership provides IRFs with access to all of our Post-Acute Academy courses for as many staff members as they need. Each course is self-paced, and many include post-module quizzes. Select courses include nursing and AOTA continuing education credits and certificates of completion.

Full access to the entire Post-Acute Academy course library is available at a steep discount for any facility that needs access for at least ten people.

Number of Seats	Cost per Seat
10–100	\$200
101–300	\$175
301–500	\$160
501 or more	\$150

To inquire about an annual membership to Post-Acute Academy, contact us today at irfeducation@mcbeeassociates.com.

The average price of a single course is \$90, making an annual membership a tremendous value.

QI Coding

Post-Acute Academy's quality indicator coding webcasts focus on how IRFs can provide documentation that supports the QI codes on the IRF-PAI. Accurately coding these cognitive and functional assessments is an integral part of an IRF's reimbursement and quality reporting.

These QI coding courses cater to many different IRF staff members, including:

- 🕒 Therapy staff
- 🕒 Nursing staff
- 🕒 PPS coordinators
- 🕒 Other healthcare professionals who code quality indicators
- 🕒 New hires

IGC and ICD-10 Coding

Post-Acute Academy's impairment group coding and ICD-10 coding webcasts help IRFs comply with CMS's IRF-PAI coding guidelines and IRF regulations such as the 60% rule.

Our IGC and ICD-10 coding resources are especially helpful to the following IRF personnel:

- PPS coordinators
- IRF coders
- CDIs
- Rehab physicians
- Admission liaisons

CMS Documentation Requirements

Post-Acute Academy includes many webcasts that address CMS's documentation requirements. These courses help IRFs not only provide documentation that supports CMS's "reasonable and necessary" criteria for each patient they admit, but also deal with denials and appeals.

These CMS documentation resources will benefit many rehab professionals, including:

- Program directors
- Therapy and nursing managers
- Admission liaisons
- PPS coordinators
- Rehab physicians
- Residents
- Physician extenders

IRF Regulations

Post-Acute Academy's IRF regulation webcasts introduce the basic elements of the Inpatient Rehabilitation Facility Prospective Payment System (IRF PPS), including case-mix groups (CMGs) and the classification criteria that IRFs must meet in order to be paid under the IRF PPS.

These IRF regulation resources will be especially useful to the following rehab professionals:

- CEOs and CFOs
- Program directors
- Rehab managers
- PPS coordinators
- Medical directors

Universities/Students

Post-Acute Academy's QI education is designed for collegiate instructors and teaching hospitals to share with their students in order to help them review the guidelines for correctly coding functional assessments in inpatient rehabilitation.

Our university offerings are specifically designed with the following individuals in mind:

- OT and PT students and therapy assistants
- Nursing students
- Collegiate instructors
- Hospital interns
- New hires
