## What reports are going to help me?

- Comprehensive Performance Report
- Admit/DC FOMS
  - Admission Functional Status report and Admission Frequency report
  - Discharge Functional Status report and Discharge Frequency report
  - Case Listing – Patient-specific scores compared to CMG Risk Adjusted
  - Discharge Function Score Report
- Performance Evaluation Model
- FOM Education
  - EDU/Training/Consultation- IRF-PAI Manual- FAQ about IRF PAI QI
  - EDU/Training/Consultation- Clinical (different resources to download or order)
- Profile Reports – use as part of visual education
- Bladder and Bowel
  - Reports- software on demand- quality measurement- bladder and bowel
- FOM Credentialing
  - Reference “clinicians” tab for history of test scores
  - QI credentialing- dashboard- shows where we are “lacking” and should focus education- if less than 80%
- PEM Report: impacted by D/C FOMS, change in admit and D/C FOMS, DC location (ACT or community), Functional Attainment
- Monthly Summary Trends report

RECOGNIZED  
NATIONALLY.  
HEALING  
LOCALLY.

4

## The Challenge

- Experts in accuracy of care
  - FOM coding
  - B&B
  - Medical Comorbidities
  - Documentation
  - Right Resources at the right time
- How do we Engage, Educate, and Empower Our Staff to be extensions of us??

RECOGNIZED  
NATIONALLY.  
HEALING  
LOCALLY.

## Determine which indicator is lagging

- Generate the scoring Report (any rating inaccuracies?)
- Can you identify FOM items whose average values are different from the expected National/Corporation averages? (Admission Scoring Report)
- Scoring differently than the expected for a specific FOM category (Admission Frequency Report)
- Are you doing this on admission and discharge patients? (Both on Admission and on Discharge)

RECOGNIZED  
NATIONALLY.  
HEALING  
LOCALLY.

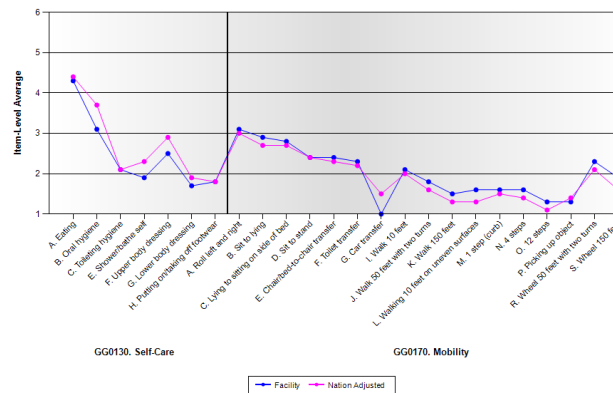

## Admission and DC Functional Scoring Report

Blue = Facility admission FOM (or DC depending on report)

- Pink = Adjusted admission and discharge FIM® ratings

Admission QI Scoring

## Therapy Finance 101

1. How are we paid?
  - a. Facility Base Rate X CMI
2. Impact of **FOM Rounds** Financially
  - a. If you impact CMI by 0.05, it can be a difference of \$750,000 a year
3. Impact to Budget
  - a. If my budget is to make 5M, 1/6<sup>th</sup> can be from moving a CMI up by 0.05
4. **Cost PPD**
  - a. Impact of CPPD reduction from 150 to 140 over a month and a year
  - b. 1,200 patient days in a month
  - c. THUS, therapy cost per patient day is  $1,200 \times 140 = \$168K$  in Therapy Spend
  - d.  $1,200 \times 150 = \$180K$  (12K more in expenses) Annualized that's \$144K
5. **TOTAL IMPACT**
  - a. Combine a CMI increase of 0.05 and a reduction in CPPD by \$10, and you can make your hospital an additional \$894,000 in a year

## CMI Made Simple

1. RIC
2. Unweighted Motor Index
3. Tiers

## TIERS – JUST A CODE?

Tiers	Affect on CMI	Resource Affect
Tier B	56 Increase	+\$8976 per DC
Tier C	23 Increase	+\$3687 per DC
Tier D	11 Increase	+\$1763 per DC
Tier A (No Tiering Comorbid)	---	---

**\*\*Example – based on EH average base rate \$16,029 and 800 MC/MR discharges. Starting tiers – 50% A; 40% D; 5% C. Reducing A Tiers by 10% - increase D (8%), increase C (2%). Nearly \$200,000 increased reimbursement!!**

## Key Considerations for Managing LOS

- Functional Improvement & Discharge Planning
- Interdisciplinary Team Conferences
- Daily “Flash” UR
- Patient and Family Engagement

## Key Considerations for Managing LOS

- Medical and Therapy Management
- Regulatory and Payer Expectations
- Barriers to Discharge
- Data Monitoring and Benchmarking

### RECOMMENDED TIME

- ☐ Immediately Following Morning Ops

### RECOMMENDED ATTENDEES

- ☐ Required: DPO, DTO, DNO, DOC, CEO
- ☐ As Needed: DMBD, Case Managers/PRS, Provider

## Example of Daily UR Flash

### RECOMMENDED AGENDA:

- ☐ LOS/ALOS management:
  - o PPS > Patients > 4 days past ALOS – Right bucket? Efficiencies/planning/communication among team?
  - o PPS > Patients > 4 days before ALOS – maximizing outcomes in every way? Community re-integration, high level activities; family/patient education/training to prevent readmission
  - o Per Diem – Projecting out correctly and requesting continued auth with right supporting documentation/justification? Tailoring POC to their individual goals and asking for authorization appropriately?
  - o Discharges spread out based on patient need & census/volume
- ☐ SNF alerts, Potential Acute Care Transfers, and Medical Necessity
- ☐ Current medical issues that need a priority visit based off what was learned at morning huddle
- ☐ Outside Services/Appointments
- ☐ Discharge planning challenges/calendar revisions
- ☐ Review TOP enrollment/New Readmissions
- ☐ CMGs present for all patients on day 4 of admission or after (exception Mondays)
- ☐ Level of Care (Category 3) validated for all applicable payors
- ☐ CMS-13 in house
- ☐ IP to OP Conversion – barriers?
