JOB POSTING - Reporting Analyst
Full Time Salary Exempt

There are a lot of jobs in IT and analytics but rarely can you impact patient care and outcomes!

Come join UDSMR the team of experts that provides healthcare facilities the technical and clinical expertise that enables them to adhere to the complex regulations for care and payment. Our software systems used by Inpatient Rehabilitation Facilities and post-acute care are based on a uniform metric that provides the basis for benchmarking and comparison of healthcare outcomes. This enables healthcare providers to document and improve the outcomes, processes and perceptions of care.

As the Report Analyst you will identify report data requirements and create comprehensive technical data design specifications. Collaborate with key stakeholders to produce and support standard and custom built reports and dashboards, and assist with test planning. The ideal candidate will be able simplify complex report designs into a "picture" easily conveyed to developers and end-users.

A self-starter who can identify shortcomings and make recommendations on improvement in new and existing reports will be highly successful in our environment. An ability to understand the data in our large database and perform data analytics to provide support and interpretation to subscribers for their reports and the implications for their programs and facilities is a plus.

Knowledge and skills: Bachelor's degree in IT/ Mathematics/MIS, or equivalent experience. Expertise with SQL, SAS or SPSS required. An understanding of healthcare, insurance, or quality improvement a plus.

Our diverse team of highly motivated leaders and innovators are the secret to our 30 years of success. If you are the rare breed that possesses good communication skills as well as strong analytical and technical ability apply today!
