## **JOB POSTING - Senior Network Administrator** **Full Time Salary Exempt**

There are a lot of jobs in IT and analytics but rarely can you impact patient care and outcomes!

Come join UDSMR the team of experts that provides healthcare facilities the technical and clinical expertise that enables them to adhere to the complex regulations for care and payment. Our software systems used by Inpatient Rehabilitation Facilities and post-acute care are based on a uniform metric that provides the basis for benchmarking and comparison of healthcare outcomes. This enables healthcare providers to document and improve the outcomes, processes and perceptions of care.

As the Sr. Network Administrator you will be responsible for providing and maintaining reliable and secure up-to-date internal and external network infrastructure for the entire organization. The ability to provide senior expertise and assistance in developing strategies, directions, and plans for corporate network technology and application systems is critical. We are seeking the candidate who has aptitude and experience in network architecture, high level system security/integrity and privacy.

The ideal candidate who has a highly developed ability to identify problems or potential problems and recommend solutions, and successfully and efficiently implement them will be highly successful in our environment. Collaboration with Manager of IT, CEO/CIO, the network team, database administrators and programmers is essential to successful and smooth operations.

UDSMR keeps up to date on new technologies. In the healthcare environment it is essential to utilize systems and technology that provide the highest level of security possible. You will be working with up-to-date current and future technologies including Cisco, Microsoft and Oracle. Self-driven learners who are energized by keeping abreast of the new technology and security will thrive in our company.

Knowledge and skills: Bachelor's degree in Management Information Technology or related professional degree. A minimum of 4 year experience in network administration. Proficiency in system hardware and system applications a must.

Our diverse team of highly motivated leaders and innovators are the secret to our 30 years of success. If you are a professional who collaborates with their team to deliver the best and most reliable network system then apply today!

UDSMR is an Equal Opportunity Employer /Affirmative Action Employer  
Minority, Female, LGBT, Disability and Veteran
